Aquila's new flagship sold in Asia-Pacific

The powercat successfully synthesises comfort and performance

Simpson Marine recently announced the first sale of the Aquila 70 Luxury Power Catamaran in the APAC region. First unveiled in early 2021, it will be delivered to Indonesia in the coming months.

"It's an honour to represent Aquila in Indonesia, and with the largest archipelago in Asia, the Aquila 70 Luxury is the perfect powercat to explore this incredible part of the world, noted Paul Whelan, Simpson Marine Indonesia country manager. "I'm excited to be working with a very technical owner on this build, and combined with his specific custom modifications, we are creating a very special Aquila that is perfectly suited to long-range cruising with his young family."

This new flagship model from Aquila is the brand's largest ever to be launched, and her popularity has soared since her release; the order book for the Aquila 70 is now full for the next two years.

"THE AQUILA 70 TOPS THE CHARTS IN BOTH COMFORT AND PERFORMANCE"

Reaching top speeds of 27 knots, the Aquila 70 tops the charts in both comfort and performance. Its spacious interior is accompanied by avant-garde amenities and excellent outdoor socialising areas, including an open cockpit bar. Morelli & Melvin Design Studio developed the powercat's refined aesthetic.

Aquila set foot in the Asian market in 2018 in partnership with Simpson Marine and since then, the brand has grown ever more popular. Renowned

for their expansive living areas, stellar handling, and state-of-the-art finishes, Aquila powercats currently sail the seas in China, Hong Kong, Malaysia, Singapore and Thailand. A sale of an Aquila 54 model was recently concluded in Pattaya, Thailand, while four orders have been made in Singapore. A successful Asia launch of the newly created Aquila 28 Molokai was recently held in Malaysia, with the boat being sold soon afterwards. aquilaboats.com
