Bluegame's BGX60 takes luxury to the next level

In 2018, Bluegame joined Sanlorenzo, the leader in the high-end luxury yachting industry. This move radically changed Bluegame's paradigm and opened up incredible opportunities for its growth and development by exploring new paths. The strong boost from Sanlorenzo materialized right from the start, by making available the talent and the creativity of Studio Zuccon International, who have designed most of Sanlorenzo's award-winning models in recent years.

Bernardo and Martina Zuccon have remained faithful to Bluegame's vision, confirming their undisputed reputation by bringing to the range new ideas and designs. Together with Luca Santella, they have developed the new breakthrough BGX models in tandem with Luca's very innovative yacht design concept.

KEY FEATURES

Bluegame's interior focuses on intricate handicrafts, automation and sustainability.

Step into a world of refined craftsmanship and visionary design as you step aboard a Bluegame yacht. Born in the storied ship-building region of Iseo Lake, where a legacy of unparalleled artistry thrives, Bluegame yachts epitomize the fusion of tradition and innovation. Each vessel bears the mark of master craftsmen who pour their expertise into every intricate detail, creating a masterpiece that is as awe-inspiring as it is customizable. With the ability to tailor the yacht to the unique tastes and desires of each owner, Bluegame ensures that every journey is a reflection of personal style and sophistication.

Bluegame production is performed under the most attentive sustainability principles, using FSC certified wood, total LED lighting, zero-impact sustainable leather, and formaldehyde-free furniture thereby respecting the environment during construction and during use of the boats. This respect is extended to participating to international foundations engaged in protecting the planet's oceans.

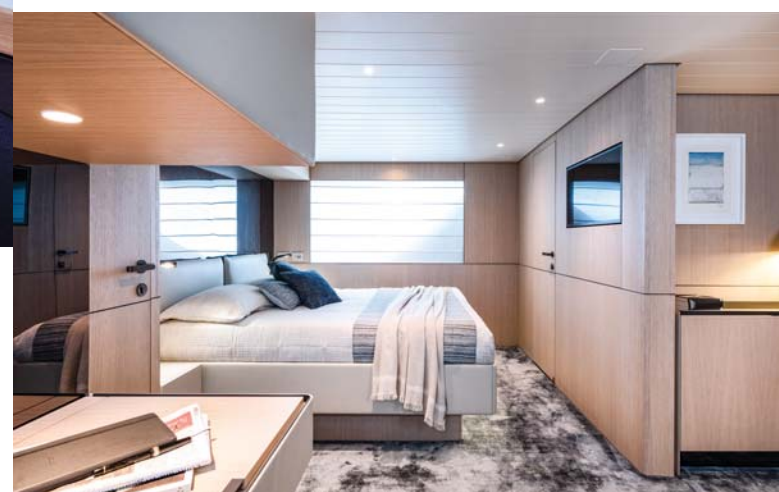

BGX60: designed for bold sea lovers

The innovative BGX60 exceeds all expectations and offers the deepest connection with the elements.

Conceived for those who want to pursue a profound closeness with the sea, this surprising power boat will make you experience the infinite blue even when inside your yacht. The BGX60 is definitely worthy of its place next to the BGX70.

The BGX60 is a brilliant multi-purpose yacht that combines an exclusive design with cutting-edge technology, always delivering high performance and outstanding seaworthiness, for unique moments on board.
